

General

Go to Mr. Bodin with problem.

Station Manager of WAMF ~~wants you to see WAMF~~

" to talk to you

~~for the~~ what they can offer

M. Tu. F

How to handle situation? ^{Mr.} with Bodin

Radio-imp. medium - must work smoothly, can get too audience
immediately - ~~ask~~
Responsive to:

- 1) College for good programs - They get annoyed when we have to
go off air ^{due to technical difficulties}
- 2) advertiser - we as a dept can't get money which ~~program~~ board

go well obviously

- 3) Holyoke + Amherst - Reflects names of colleges.

Financially - in hds - but can't get out with kid fixing board.

1 turn table working - ac is 45' wcd. Cuss slow.

Treating Board badly -

Bob said hit it - only way to get on air

Thurs. Morn. at 8:00 AM

Contact on origin switch - must be flipped strongly - or
connection fades out.

Not our fault what goes wrong - in board.

Bob

what about competent Engineers in future?

Power is through College - can Paul fix keep in regulation
with them?

Technical Dept.

Anti-Mr. King.

1) TV. takes too much time for him

2) No interaction WSO. Comes up very seldom

Before Broadcast

With Cable - supposed to be in before school opened

3) - Otherwise Bob comes up - admits he doesn't know how

wouldn't fix original switch - because too many wires

It had turntable off on since beg of airline

4) Board off - Mr. King said to bring to fix it

only worked for 3 days after beginning of school

this can see - board sloppy.

a) takes loose

b) wires not connected well

Doesn't fix it properly - ^{we} have to make toiling trips

Put 3 1/2 needles in 78 arm - makes it muddy. Inexcusable!!

last yr. fiasco - same thing wrong over & over again never
fixed right - takes too much time

Pro. Ambert.

Interest - there ^{advantages} as well as ours.

(Board in fine order - go see it (~~with Bob~~ ~~but with M. King~~))

Probably less expensive

Paul competent - to a Soph Junior - trainize those who are Soph more

"

General -

Radio - improvement - with new improvements - Pick Campbell radio over and
Cable - ^{they are getting us - quite a more imp.} ~~they are on line~~ Our Broadcasting facilities on College

Holy place ~~over on line~~ - as well as what we can't do in the

Shape unless board works well.

Using 1 turn table makes class poor
